

# Homework 1

Due: January 23, 2019 EotD

---

Create and submit an Android Kotlin application that:

1. Has **two** TextViews
2. Has **two** Buttons
3. Has **two** EditTexts (Find them in the widget's palette)
4. First button concatenates the two EditTexts and outputs result to the TextView
5. Second button adds the two EditTexts and outputs result to the TextView
6. Application should not crash and should handle errors appropriately

---

## Grading

- 0 - No submission
- 1 - Not working and very little code
- 2 - Not working or very little code
- 3 - Requirements missing
- 4 - All requirements fully satisfied
- 5 - All requirements fully satisfied and added design and/or functionality
